Jean-Michel Pilc: A Portrait (DVD)

The self-taught pianist has one of the most elegant touches in music today. The NYU music educator, together with Boris Kozlov on bass and Billy Hart on drums, flew to France and recorded True Story in two days. No question, the five-part suite is a gem.

Director John McCormick followed Pilc around while he performed and interacted with various musicians throughout New York. The result is a one-hour documentary emphasizing Pilc's unique talent. Both CD and DVD are worthy of recognition.

Standout Tracks: True Story, Scenes 1-5, Relic, High Sky- The Elegant Universe.
